

Business Economics (BUEC)

Gain the knowledge and skills required to use economic analysis and statistical methods to analyze business behaviours and formulate effective business strategies. Our Business Economics program integrates aspects of economics and business studies, focusing on the use of economic analysis and statistical methods to deal effectively with management problems in practical business fields.

Commitment to Excellence

Our Department's goal is to be considered one of the top economics departments in Canada and worldwide. Our faculty works tirelessly to continue its record of excellence in scholarship, quality education, critical thinking and technical proficiency through both a traditional and innovative approach to academics.

The York Promise

York is here to support you throughout your unique university journey. Beyond academic achievement, we strive to enrich your student experience through personal and professional development by offering:

- **Career-Focused Services**

Career advising, career fairs and networking opportunities to help sharpen your professional edge.

- **Academic Support**

Learning skills workshops, outstanding libraries, academic accommodations, transition programs and academic advising services designed to help you every step of the way.

- **Social & Leadership Development Programs**

A vibrant social scene with more than 300 clubs and organizations to enhance student life, and help you develop soft skills you can bring to the table in your future career.

Ola Agboola
Fourth Year Student
Business Economics

"Take advantage of the opportunities that York has to offer, and make use of the resources available. These tools will prepare you for the future. I benefited from the internship opportunities at York and am currently an intern at a Fortune 500 company. This has allowed me to gain a lot of practical experience in my field even before graduation."

Your Degree Pathway

A degree in Business Economics requires the completion of 90 Credits for a Bachelor's Degree. Your courses will consist of Major, General Education, and Elective Courses.

Elective Courses: Choose new subjects to explore or continue to develop skills from previous selections

Uros Petronijevic
Professor
Business Economics

"The scope of economics stretches far past forecasting GDP or predicting stock market returns. Economics will teach you a way of thinking that can be applied to an endless number of interesting and practical problems."
