

Your Degree Pathway

A degree in Health and Society requires the completion of 90 Credits for a Bachelor's Degree (three years) or 120 Credits for an Honours Degree (four years). Your courses will consist of Major, General Education, and Elective Courses.

First Year

First year will introduce you to the university environment, provide you with general education courses, and allow options for you to study courses aligned with your own interests.

Health and Society Courses: Health Controversies: Issues of Health, Illness and Society

General Education Courses: Humanities, Social Sciences or Natural Sciences (for non-science students)

Elective Courses: Your choice of courses outside of Health and Society

Second Year

In your second year, you will continue your development of the fundamentals of Health and Society.

Health and Society Courses: A Critical Study of Health and Society

General Education Courses: Humanities, Social Sciences or Natural Sciences (for non-science students)

Elective Courses: Choose new subjects to explore or continue to develop skills from previous selections

Third Year

Your third year in Health and Society will allow you to explore specific interests in the field.

Health and Society Course Options: Strategies of Social Science Research, The Patient, Environmental Health, Disability and Society, Indigenous Health and Healing + many more

Elective Courses: Choose new subjects to explore or continue to develop skills from previous selections

Fourth Year

In your fourth and final year, your courses in Health and Society will be designed to meet your specific interests.

Health and Society Course Options: Health and Place, Engaging Health in the Community, Art and Art making for Health Research and Practice + many more

Elective Courses: These courses can include additional Health and Society courses or further courses of interest at the upper level
